

Role Title: Plumbing Specialist

Team: DPI

Department: Operations

Team Description:

DPI members are the resident Burning Seed bad asses. We get our hands dirty preparing the site for the main event and work to ensure the main infrastructure is fed, watered and fueled throughout the event. We erect the main structures including the Stockade (including Kitchen, Site office and Showers) Gate, Greeters, Centre Camp, Arteria, Rangers, Medics, Sanctuary and the main Site Office. We ensure all the camping areas are cleared and safe, and sign mark all the roads. In our downtime we drink, play, have fun, and generally cause a ruckus.

Role Description:

As the DPI resident Plumbing Specialist, it's your job to ensure the showers and kitchen in the crew camp, the Stockade, have running, hot water and grey water drainage. We don't want any smelly hippies, cold showers, frozen fingers from early morning dish duty, or lack of hot water for our morning coffee. Those things all make the crew rather unhappy.

Previously we've had to run 20L water barrels from the main water source to the kitchen and showers and used 12V, solar run, Aqua Cubes to heat our water. It was painstaking, time consuming, and not very effective. This year we would like to see the system improve. We're thinking a gas hot water system, a 1000L water cube in the stockade with plumbing to the kitchen and showers, but we need your input. Got an idea already. Yes? Great!

Dates Required: 3 weeks pre-event and 2-3 days postevent; +2 shifts during event

Shift Length: 8 hrs/day prebuild; 12 hour on call shift during event for general DPI duties

Number of Shifts: 5-6 days/week prebuild; 12 on call shifts during event

Ideal Skills:

- Ability to draw and read schematics for layout of water supply and waste
- Experience in installing, repairing and maintaining domestic, commercial and/or industrial plumbing fixtures and systems
- Well developed communication and teamwork skills
- Providing time and cost estimates of work to be performed
- Confident use of basic hand tools and power tools
- Attention to detail

Ideally you would be a qualified plumber, plumbers apprentice, undergoing a traineeship, have built and plumbed your own home/business, or just got your hands dirty plumbing for a hobby.

Training Provided:

Hopefully you've all the plumbing experience you'll require, but there's a team of multi skilled and talented people at your disposal. With everything else, if you bring the willingness, we can mould you to our will, mwahahaha!

Amenities Provided:

- hot showers
- 3 prepared meals/day during build and packdown
- 1 prepared meal/day + self-serve snacks and food during event

How to Join: Complete a registration form found on the [Burning Seed website](#), or contact Crew Wranglers at jointhecrew@burningseed.com with any questions.

Version and revision date: v1.1 (May 2019)
