

**BURNING SEED**  
2015

**REVOLUTION**  
WHAT WHERE WHEN GUIDE

The theme for Burning Seed 2015 is...

# Revolution

Revolution – a word so often charged with the bloody, ideological fury of a group seeking to overturn the prevailing powers or structures as fast as their critical mass will allow.

But the power of Burning Seed’s revolution is not in rapid overthrow or raised fist. Its power is in the depth of motion and change, and drawn from the love and evolution that live within the word itself.

Revolution is the constant, circular return to the beginning, the omega of the old and the alpha of the new. It is the panorama of new vistas and experiences emerging on the horizon of each new rotation of our world.

And as Burning Seed takes its sixth spin around the sun, the event and its ten principles continue to provide a pivotal point for those seeking a (r)evolution in how we all live, love, work and play together.

Our revolution is both an act of humanity and one of fire. It scorches the earth and tears itself open for the sapling of change, from the deeply personal to the greater social fabric of our growing community. It awakens the heart and flies the spirit like an ensign. Revolution is our incendiary phoenix.

*Burning Seed is a participatory event. You don't have to be an artist to make art, or a performer to perform, or a dancer to dance... spontaneous action is encouraged! Be inspired. Do what you feel. You can create something too, or join others who are doing the same. Share your crazy-fun-beautiful self with your Seed community and rise from the ashes of your own Revolution.*

**We acknowledge that Burning Seed is being held on the traditional lands of the Wiradjuri people. We recognise the strength, resilience and capacity of Aboriginal and Torres Strait Islander people as the traditional custodians of this land.**

## Services & support

### Information

Red Earth Info at Centre Camp is your first contact point for Seed-specific questions. It will be staffed from 11am to 3pm every day.

### Red Earth Radio

Tune in for PSAs, interviews and some seriously rad music! Frequency 98.4FM. Make sure you bring a radio, and drop in and say hello!

### Pass outs

If you really need to leave the site, there is a \$20 pass out per vehicle. Head to Gate where they will organise a pass out for you. The crew will also record car registration and number of participants in the car. When you return to the site, Gate will make sure everything matches up and then take the pass back.

### Ice sales

Ice is the one exception to the no-commerce rule. It will be on sale at Centre Camp between 10-11am and 4-5pm daily for \$4 a bag or 3 bags for \$10.

### Toilets

It is vital that only human waste and toilet paper go into the toilets – NO food, tampons/sanitary products, or any other refuse. Keeping the portaloos clean and tidy helps maintain respect for our shared facilities – the neater YOU help keep them, the cleaner they will stay.

### PEER Rangers

Psychological and Emotional Emergency Response (PEER) Rangers provide support on the Paddock for participants who are having an emotional, mental or psychological crisis that goes beyond the capacity of the Burner community and Red Earth City Rangers to manage, but which does not yet need medical services. This may involve: personal space violation; altered states of consciousness; or interpersonal issues.

PEER Rangers can be found next to the Medical Tent at Centre Camp.

### Lost and found

Take found items to Red Earth Info in Centre Camp, Greeters Station, or Red Earth Rangers HQ.

### Rangers

Rangers ensure the safety of the site and participants. They are your go-to people if you have a question or concern, and can be identified by their high-vis vests. They can be found roaming or at Ranger HQ next to Centre Camp.

## Community in action

### Participation

We are a society of activists. When we see a job that needs to be done, we roll up our sleeves and pitch in. There is no 'they', only 'us'. If you see someone acting irresponsibly, introduce yourself and speak up.

But don't be a 'participation snob'. Just because someone isn't costumed or visibly participating doesn't mean they aren't contributing.

### Community crew

If you have not already raised your hand to help, it is not too late! Check out the community crew page at [www.burningseed.com](http://www.burningseed.com) or come down to Centre

### Medical services

If you or someone else requires medical assistance find a Ranger, or visit our First Aid Team right next to Centre Camp. Trained medical volunteers are on duty 24/7 and emergency evacuation is available.

### Security

Security personnel monitor the gate and boundaries. If you have any concerns with security, ask for Ranger assistance.

Camp to chat about how you can help to make the awesome happen.

### Children

All children under 18yo must be accompanied by their parent or legal guardian.

It is your responsibility to ensure the safety of your child at all times during Seed. If you encounter a lost child, alert a Ranger immediately. Always be respectful of children's personal space and their needs. They are a part of our community.

### Our neighbours

There are properties bordering the forest on all sides of our city and entry to these is strictly prohibited. PLEASE RESPECT OUR NEIGHBOURS.

## Cars & driving rules

Red Earth City is a bicycle and pedestrian-friendly city. Once you have entered the event and driven to your campsite, there is no driving allowed unless you are a registered Mutant Vehicle. The following road rules apply in Red Earth City:

- All vehicles must be either licensed or possess a REDMV permit
- You must drive at 5 km/h or less in hazardous situations such as tight crowds
- Give right of way to pedestrians, bicycles, and emergency services vehicles
- Stop immediately when hailed by a Ranger, REDMV official or law enforcement officer
- Do not drive under the influence of drugs or alcohol
- Do not drive on wet or freshly watered roads

All Mutant Vehicles must seek a permit by contacting redmv@burningseed.com before the event.

## Alcohol and illegal substances

Responsible use of alcohol is allowed for adults. If you are serving alcohol, it is your responsibility to verify that the person you are serving is of legal drinking age (18+). As with the rest of Australia, Seed has to follow state and national laws concerning

illegal substances. The rules apply.

## Commerce and advertising

The sale of products and services is prohibited at Seed. There is NO participant vending. If you need a specific item, ask your neighbours. Confront your own survival. Corporate advertising is also not allowed. Participants with rental trucks are encouraged to cover or decorate logos.

The display or distribution of corporate banners, corporate logos, giveaway items, samples and other promotional paraphernalia is prohibited.

## Pets

We get that you love yours, but pets are NOT allowed at Seed.

## Media

The number of media crews will be limited and they are pledged NOT TO INTERFERE WITH YOUR EXPERIENCE. If you feel that a media person is creating a nuisance, contact the Rangers.

## Generators

PRETTY PLEASE Don't run your generator late at night or early in the morning. Place the generator as far from other camps as possible. Make sure people can't trip over power cords. Cover your generator with a sound shield or baffle. DO NOT bury it to shield the noise, m'kay?

## CONSENT! CONSENT! CONSENT!

Nothing is sexier than exploring your boundaries and asking for what you want - and nothing is more important than understanding and respecting what you or someone else doesn't want.

Consent is critical for protecting and nurturing Seed as a radically expressive space where our community can play, knowing they are safe and their boundaries are respected.

**ALWAYS** ask before initiating any physical contact such as touching, hugging, spanking...you get the idea.

Wanna snap a photo? Ask first or check in as soon as you can, especially if they're naked! If you are asked to delete a photo, please do so immediately.

Our community is open-minded and liberal and whether you're a newcomer or not, you might not know what is acceptable until you ask.

By asking for consent, you'll eliminate confusion and foster a tighter, safer and more open community.

By listening to and respecting people's answers, you'll also ensure the same.

This means that only a clear, enthusiastic and verbal yes means yes.

### And no means NO.

Silence is not consent. Asleep is not consent. Intoxicated and unable to barely string a sentence together is not consent.

We take any violation of personal boundaries very, very seriously, and it's up to every participant to help maintain the safety of our community by ensuring that everybody understands the need to ask for consent.

If you or somebody needs to report a violation of personal space or you are just seeking support, PEER Rangers can help with these issues. They are found next to the medical tent.

**Violations and repeat offenders may be ejected from the current event and banned from any future Seeds.**

## Sound

Burning Seed is dedicated to radical self-expression, but it is also dedicated to creating community. This means we all must find a way to get along with our neighbours – having a good time at the expense of someone else’s experience ain’t cool.

- Neighbours should talk to one another when sound becomes a problem. If your neighbour feels your sound is too loud, you must work with them to find an acceptable volume.
- Camps playing loud music **MUST** be located on the western side of the

Paddock (the “LOUD Zone”). They may freely express themselves unless the sound levels conflict with theme camps in the vicinity and/or there are persistent community complaints.

- Any unresolved complaints about excessive sound.
- Not everyone will want to sleep when you do. The most reliable way to get a quiet, uninterrupted night’s sleep is to camp as far east in the city as possible (farthest corner from the Gate). There are no noise-free zones at Burning Seed, only less-loud areas; light sleepers are advised to bring earplugs.

## The environment

### The dam

The dam is strictly off limits. **NO BATHING, SWIMMING OR WASHING OF ANY ITEMS IS PERMITTED.** Children must have an adult with them whenever they are nearby.

### Grey water

It’s okay to dump some non-toxic grey water on the grass, but **NOT IN THE DAM.** Package any toxic grey water up in the same containers you bring your water.

## LEAVE NO TRACE

WE ARE COMMITTED TO LEAVING NO PHYSICAL TRACE OF OUR ACTIVITIES WHEREVER WE GATHER.

Rule No. 1 of Leave No Trace – Don’t let it hit the ground! Burning Seed is also a do-ocracy. If you see MOOP (Matter Out Of Place), pick it up. Smokers, you are responsible for your butts. **Bring your own cup.** Use a camelback or refill personal water bottles. Sort your waste as you go. Be responsible for your own rubbish. Please carry a small ash receptacle with you.

## Fire

Fire is the biggest risk to Burning Seed – and to our crop-growing neighbours at the peak of their harvest season. We take fire very seriously, and ask for your understanding and cooperation of all the following guidelines.

**Open fires:** as per the conditions of our site permit, there can be **NO SOLID FUEL FIRES** except in registered art fire pits/events or Theme Camp burn barrels. Don’t have a registered burn barrel? Don’t fire up - it’s that simple. Violators will be ejected from the event. Yes, we are that serious.

**If you see any other fires:** please inform a Seed Ranger or other Volunteer. Personal fireworks and firearms are also prohibited.

**Flame effects:** Whether its part of your art, mutant vehicle or Theme Camp, all flame effects or pyrotechnics must be registered with the Fire Art Response Team. If you haven’t done this before

September 1, then sorry, folks, it’s no go with that wacky flamethrower you brought along for kicks.

**Fire spinning:** All fire play activity is coordinated by the Fire Enclave out of the Mint Country Club theme camp, and can occur only in the designated play areas. Plan on spinning? **YAY!!!** Bring your safety gear, and pay Mint Country Club a visit to get the skinny.

**Burn perimeters:** The Effigy, Temple and art piece burns will have safety perimeters coordinated by the Red Earth Rangers. In light of past tragedies at regional burns, we ask for your full cooperation in respecting the Rangers’ guidance and not approaching the fire until clearly permitted to do so.

**Total fire ban:** It is unlikely but possible that there may be total fire ban days, in which case we ask that no flame be lit whatsoever - extending the utmost care even to cigarettes, pipes and cigars as well.

## Gas stoves and heaters

Gas-fired stoves and heaters are allowed, but must be supervised at all times - do not leave them unattended under any circumstances. Gas heaters must be inspected and tagged for safety by the Fire Art Emergency Response Team before they can be used on site. When you arrive at the event, Gate will ask if you have a gas heater and direct you to the Fire Art Emergency Response Team at Centre Camp. To pass inspection, you must have a fire extinguisher and a means of securing the gas heater so it can’t tip over. When the gas-fire appliance is in use, make sure there is no flammable material (trees, tents, tarps, fabric, etc) within a three-metre radius or less than twice the height of the appliance.

# The Ten Principles

## Burning Seed is an experiment in temporary community. Its culture is guided by the following Ten Principles of Burning Man:

### Radical Inclusion

Anyone may be a part of Burning Man. We welcome and respect the stranger. No prerequisites exist for participation in our community.

### Gifting

Burning Man is devoted to acts of gift giving. A gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

### Decommodification

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or

advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

### Radical Self-reliance

Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

### Radical Self-expression

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

### Communal Effort

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

### Civic Responsibility

We value civil society. Community members who organise events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

### Participation

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing.

Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

### Immediacy

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

### Leaving No Trace

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavour, whenever possible, to leave such places in a better state than when we found them.

# The Effigy

Glenn Todd, Lead Artist and Project Manager  
T-Rex, Engineer and Builder

Standing on top of his temple of power, the Patriarchal elite holds our planet within his hands, exerting his vision and control.

His greed shows no limits, masked in economic theory and endless growth. His violent rule is powered by oil, gas and explosives. He shows no mercy for humanity, wreaking environmental and social havoc. He is the beautiful facade of an outsourced externality.

Across our lands change is happening. People from all walks of life are organising, resisting, applying alternatives and creating the new technologies that will drive us into the future. Our vision shows no limits, our love and connection is our strength, powered by new ideas and ancient wisdom.

We are creating the new communities that are challenging his old models, disempowering him, making him unstable and volatile.

As our Burner community gathers to connect, to flirt and to play, we also create the space for the alternative. Opening our minds and our hearts, an experience outside the default. Together we create that special space, to expand our personal expression, exploring our inner power and challenging barriers that hold us back. Will we have the courage to explore a deeper love, to love so deep it hurts? To create the connection and actions to make his world irrelevant? Evolution within our hearts, together we revolt...

**The Effigy will burn from 7.30pm Saturday night**

# The Temple

## Tower of Babel

Bradley Ogden, Lead Artist and Project Manager

This year the Burning Seed Temple has taken inspiration from the story of the Tower of Babel. It is a narrative in the Book of Genesis, from the Tanakh and the Old Testament and attempts to explain the various languages of the world, and how they came to exist.

The story tells how the people, united, sought to build a tower to make a name for themselves, and how the Christian god came to Earth and noted that as the people were acting as one, and spoke one language, that no accomplishment would be out of their reach. So, he confused their speech and scattered them across the world.

There are several interpretations of the story; one, the seemingly obvious, that god confused the speech of humanity as punishment for an act of defiance, daring to challenge his might. The other, that it is an etiological myth explaining cultural and linguistic differences.

We come together, briefly united in spirit on the Paddock, speaking many languages, accomplishing great deeds and building fantastic structures. It is our duty to then take that spirit with us, to spread it far and wide, to go to all corners of the earth and share it with the World.

We are the Revolution. Burning Seed is the genesis of Change.

**The Temple will burn from 8pm Sunday night**

# Leaving the Seed site

## Heading home

Please don't drive until you are ready. There may be breathalysers on the way out.

## Leave No Trace

Make sure everyone does a MOOP (Matter Out Of Place) sweep of your camp before you leave. Every little bit of MOOP, including nails, cable ties, peanut and egg shells, glitter, cigarette butts, anything that is not part of the natural environment, must be taken away. Leave no trace really does mean LEAVE NO TRACE.

## Rubbish and recycling

Don't dump rubbish in neighbouring towns, roadside bins or service stations on your way out. Remember to secure your load. We suggest using heavy-duty bags or double bagging – heck, if you put it on top of your vehicle, triple bag it! You can dispose of your rubbish locally:

### Narrandera:

Cypress Centre Recycling,  
1 Dalgetty St, Narrandera.

### Wagga:

City Council Waste Management Site (garbage and recycling),  
132 Ashfords Rd, Wagga Wagga.

### Coolamon Tip:

Located 5 km SSW of Coolamon.  
Head South on Wagga Hwy less

than 1 km, turn RIGHT on Rock-Coolamon Rd. Drive 5 km, tip is on your right. Open Mon 9am-1pm.

### Ganmain Tip:

Located at the end of Grave St (by the cemetery) in the far SE corner of town. Go S down Gresham St from Coolaman-Ganmain Rd (also known as Waterview Rd) until it hits Grave St, turn left, keep going and pray for signs. Open Mon 2-5pm.
