

WHAT WHERE WHEN

BURNING SEED 2016

SEPTEMBER 28 - OCTOBER 3

RED EARTH CITY, MATONG STATE FOREST, NSW

**WE ACKNOWLEDGE THAT BURNING SEED
IS BEING HELD ON THE TRADITIONAL
LANDS OF THE WIRADJURI PEOPLE. WE
RECOGNISE THE STRENGTH, RESILIENCE
AND CAPACITY
OF ABORIGINAL AND TORRES STRAIT
ISLANDER PEOPLE AS THE TRADITIONAL
CUSTODIANS OF THIS LAND.**

THE BURNING SEED 2016 THEME IS...

DEEP SPACE

For millennia, humans have been inspired and guided by the stars and the Deep Space that stretches endlessly around them. Before even the ancient Greeks or Galileo, Aboriginal people have used the secrets of the night sky to survive the Australian landscape, passing down stories science is now using to unlock the mysteries and histories of our stars and universe. But we are not only part of this universe; the universe is part of us.

The atoms that make up life on Earth can be traced back to stars that collapsed and exploded, scattering their guts across the galaxy. Celestial lights begot life as these guts of carbon, nitrogen and oxygen solidified into solar systems, planets and life itself.

Is our desire for Deep Space a desire for our birthplace? As we reach for those stars, are we reaching for ourselves too – a journey of discovery into the unknown limits of the universe and ourselves, or a return to the merely forgotten? A primal homecoming?

At Burning Seed, we love to greet each other with “Welcome home”. For us, the Paddock is both a return and a mini-world beyond our known worlds. It’s a journey of discovery that is as much about place as the unknown space that we explore together and within each and every one of us.

WELCOME HOME

SERVICES & SUPPORT

RED EARTH RADIO

Tune in for PSAs, interviews and some seriously rad music! Frequency 92.3 FM. Make sure you bring a radio, and drop in and say hello!

PASS OUTS

If you really need to leave the site, there is a \$20 pass out per vehicle. Head to Gate where they will organise a pass out for you. The crew will also record car registration and number of participants in the car. When you return to the site, Gate will make sure everything matches up and then take the pass back.

ICE SALES

Ice is the one exception to the no-commerce rule. It will be on

- ◇ sale at Centre Camp between 10-11am and 4-5pm daily for \$4 a bag or 3 bags for \$10.

TOILETS

It is vital that only human waste and toilet paper go into the toilets – NO food, tampons/sanitary products, or any other refuse. Keeping the portaloos clean and tidy helps maintain respect for our shared facilities – the neater YOU help keep them, the cleaner they will stay.

LOST AND FOUND

Take found items to Red Earth Info in Centre Camp, Greeters Station, or Red Earth Rangers HQ.

RANGERS

Rangers ensure the safety of the site and participants. They are your go-to people if you have a question or concern, and can be identified by their high-vis vests. They can be found roaming or at Ranger HQ next to Centre Camp.

MEDICAL SERVICES

If you or someone else requires medical assistance find a Ranger, or visit our First Aid Team right next to Centre Camp. Trained medical volunteers are on duty 24/7 and emergency evacuation is available.

SECURITY

Security personnel monitor the gate and boundaries. If you have any concerns with security, ask for Ranger assistance.

PEER RANGERS

Psychological and Emotional Emergency Response (PEER) Rangers provide support on the Paddock for participants who are having an emotional, mental or psychological crisis that goes beyond the capacity of the Burner community and Red Earth City Rangers to manage, but which does not yet need medical services. This may involve: personal space violation or significant interpersonal issues.

PEER Rangers can be found next to the Medical Tent at Centre Camp.

COMMUNITY IN ACTION

SANCTUARY

Things don't always go to plan at Seed - even for veteran burners; and for those times where you can't find your flow - there is Sanctuary.

Sanctuary is all about getting you back on your feet.

Sanctuary will operate around the clock during Seed working alongside Rangers, Peer and Medics.

PARTICIPATION

We are a society of activists. When we see a job that needs to be done, we roll up our sleeves and pitch in. There is no 'they', only 'us'. If you see someone acting irresponsibly, introduce yourself and speak up. But don't be a 'participation snob'. Just because someone isn't costumed or visibly participating doesn't mean they aren't contributing.

COMMUNITY CREW

If you have not already raised your hand to help, it is not too late! Check out the community crew page at www.burningseed.com or come down to Centre Camp to chat about how you can help to make the awesome happen.

CHILDREN

All children under 18yo must be accompanied by their parent or legal guardian. It is your responsibility to ensure the safety of your child at all times during Seed. If you encounter a lost child, alert a Ranger immediately. Always be respectful of children's personal space and their needs. They are a part of our community.

OUR NEIGHBOURS

There are properties bordering the forest on all sides of our city and entry to these is strictly prohibited. Please respect our neighbours.

CARS & DRIVING RULES

Red Earth City is a bicycle and pedestrian-friendly city. Once you have entered the event and driven to your campsite, there is no driving allowed unless you are a registered Mutant Vehicle. The following road rules apply in Red Earth City:

- All vehicles must be either licensed or possess a REDMV permit
- You must drive at 5 km/h or less in hazardous situations such as tight crowds
- Give right of way to pedestrians, bicycles, and

emergency services vehicles

- Stop immediately when hailed by a Ranger, REDMV official or law enforcement officer
- Do not drive under the influence of drugs or alcohol
- Do not drive on wet or freshly watered roads
- All Mutant Vehicles must seek a permit by contacting redmv@burningseed.com before the event.

ALCOHOL & ILLEGAL SUBSTANCES

Responsible use of alcohol is allowed for adults. If you are serving alcohol, it is your responsibility to verify that the person you are serving is of legal drinking age (18+). As with the rest of Australia, Seed has to follow state and national laws concerning illegal substances. The rules apply.

COMMERCE & ADVERTISING

The sale of products and services is prohibited at Seed. There is NO participant vending. If you need a specific item, ask your neighbours. Confront your own survival. Corporate advertising is also not allowed. Participants with rental trucks are encouraged to cover or decorate logos.

The display or distribution of corporate banners, corporate logos, giveaway items, samples and other promotional paraphernalia is prohibited.

PETS

We get that you love yours, but pets are NOT allowed at Seed.

MEDIA

The number of media crews will be limited and they are pledged NOT TO INTERFERE WITH YOUR EXPERIENCE. If you feel that a media person is creating a nuisance, contact the Rangers.

GENERATORS

PRETTY PLEASE Don't run your generator late at night or early in the morning. Place the generator as far from other camps as possible. Make sure people can't trip over power cords. Cover your generator with a sound shield or baffle. DO NOT bury it to shield the noise, m'kay?

SOUND

Burning Seed is dedicated to radical self-expression, but it is also dedicated to creating community. This means we all must find a way to get along with our neighbours – having a good time at

the expense of someone else's experience ain't cool.

- Neighbours should talk to one another when sound becomes a problem. If your neighbour feels your sound is too loud, you must work with them to find an acceptable volume.
- Camps playing loud music MUST be located on the western side of the Paddock (the "LOUD Zone"). They may freely express themselves unless the sound levels conflict with theme camps in the vicinity and/or there are persistent community complaints.
- Any unresolved complaints about excessive sound will become the concern of the Red Earth Rangers.
- Not everyone will want to sleep when you do. The most reliable way to get a quiet, uninterrupted night's sleep is to camp as far east in the city as possible (farthest corner from the Gate). There are no noise-free zones at Burning Seed, only less-loud areas; light sleepers are advised to bring earplugs.

CONSENT! CONSENT! CONSENT!

Communication is the best form of lubrication. Knowing your boundaries and respecting others is the safest way to enjoy many interactions at Seed. Not obtaining consent is also against the law.

Consent is required to protect and nurture Seed as a radically expressive space where our community can play securely.

ALWAYS ask before initiating physical contact such as touching, hugging, spanking or entering someone's personal space. If in doubt ASK. Wanna take a photo? Ask for consent first or check immediately after. If asked to delete a photo, do it immediately.

Asking for consent eliminates confusion and fosters a tighter, safer and more open community.

Consent is not a 'maybe' or 'not now' or 'maybe later'...it is a clear expression of YES! Consent can be withdrawn at any time and if this occurs you must stop what you are doing immediately.

Our community is serious about respecting each other. If you are observed to act in a disrespectful or non-consensual manner towards others, you may be approached by your fellow burners to change your behaviour immediately. Issues can be reported to an on-duty Ranger. For more serious assaults, our PEER (Psychological and Emotional Emergency Response) Ranger Team can be contacted upon request.

Violators and repeat offenders can be ejected and banned from future events.

THE ENVIRONMENT

THE DAM

Bathing, swimming or wading of any items is not permitted. Children must have an adult with them whenever they are nearby.

GREY WATER

It's okay to dump some non-toxic grey water on the grass, but NOT IN THE DAM. Package any toxic grey water up in the same containers you bring your water.

FIRE

Fire is the biggest risk to Burning Seed – and to our crop-growing neighbours at the peak of their harvest season. We take fire very seriously, and ask for your understanding and cooperation of all the following guidelines.

OPEN FIRES: as per the conditions of our site permit, there can be NO SOLID FUEL FIRES except in registered art fire pits/events or Theme Camp burn barrels. Don't have a registered burn barrel? Don't fire up - it's that simple.

Violators will be ejected from the event.

LEAVE NO TRACE

We are committed to leaving no physical trace of our activities wherever we gather.

Rule No. 1 of Leave No Trace – Don't let it hit the ground! Burning Seed is also a do-ocracy. If you see MOOP (Matter Out Of Place), pick it up. Smokers, you are responsible for your butts. Bring your own cup. Use a camelback or refill personal water bottles. Sort your waste as you go. Be responsible for your own rubbish. Please carry a small ash receptacle with you.

Yes, we are that serious.

IF YOU SEE ANY OTHER FIRES:

please inform a Seed Ranger or other volunteer. Personal fireworks and firearms are also prohibited.

FLAME EFFECTS: Whether its part of your art, mutant vehicle or Theme Camp, all flame effects or pyrotechnics must be registered with the Fire Art Response Team.

If you haven't already done this, then sorry, folks, it's no go with that wacky flamethrower you brought along for kicks.

FIRE SPINNING: All fire play activity is coordinated by the Fire Enclave out of the Mint Country Club theme camp, and can occur only in the designated

play areas. Plan on spinning?

YAY!!! Bring your safety gear, and pay Mint Country Club a visit to get the skinny.

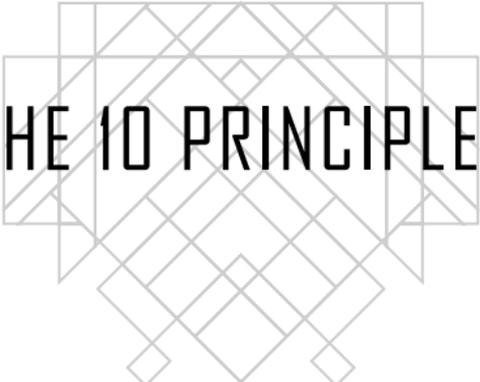

BURN PERIMETERS: The Effigy, Temple and art piece burns will have safety perimeters coordinated by the Red Earth Rangers. In light of past tragedies at regional burns, we ask for your full cooperation in respecting the Rangers' guidance and not approaching the fire until clearly permitted to do so.

TOTAL FIRE BAN: It is unlikely but possible that there may be total fire ban days, in which case we ask that no flame be lit whatsoever - extending the utmost care even to cigarettes, pipes and cigars as well.

GAS STOVES AND HEATERS

Gas-fired stoves and heaters are allowed, but must be supervised at all times - do not leave them unattended under any circumstances. Gas heaters must be inspected and tagged for safety by the Fire Art Emergency Response Team before they can be used on site. When you arrive at the event, Gate will ask if you have a gas heater and direct you to the Fire Art Emergency Response Team at Centre Camp. To pass inspection, you must have a fire extinguisher and a means of securing the gas heater so it can't tip over. When the gas-fire appliance is in use, make sure there is no flammable material (trees, tents, tarps, fabric, etc) within a three-metre radius or less than twice the height of the appliance.

THE 10 PRINCIPLES

BURNING SEED IS AN EXPERIMENT IN TEMPORARY COMMUNITY. OUR CULTURE IS GUIDED BY THE FOLLOWING TEN PRINCIPLES OF BURNING MAN:

RADICAL INCLUSION

Anyone may be a part of Burning Man. We welcome and respect the stranger. No prerequisites exist for participation in our community.

GIFTING

Burning Man is devoted to acts of gift giving. A gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to

protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL SELF-RELIANCE

Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

RADICAL SELF-EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

COMMUNAL EFFORT

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

CIVIC RESPONSIBILITY

We value civil society. Community members who organise events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

PARTICIPATION

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

IMMEDIACY

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

LEAVING NO TRACE

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavour, whenever possible, to leave such places in a better state than when we found them.

**EVERETT WAYNE, LEAD ARTIST.
EFFIGY LEAD, KORRI BRENNAN
EFFIGY 2IC, SULLY BRENNAN**

Humankind's search for the unknown is a millennial journey, one that has no real beginning and will have no end. Deep Space has drawn all of us together, from the furthest corners of this land, this earth, this solar system and beyond.

In Deep Space we have a chance to find out who we are, and to offer gratitude to who we were and who we are yet to be.

We are all ultimately alone yet we are also all vital to each other's existence, we are community, and we use this special time to reflect on our past, present and future as a tribe.

Reaching for the stars, standing atop his illuminated spaceship neatly and magnificently parked on the Paddock, the Man is both alien and familiar – a stranger and a friend.

He is a guest, a visitor, an observer watching closely and quietly, learning how we as Citizens of Red Earth City choose to live, to love, to play and to survive in harmony with our surroundings.

He is the alien among us, a harbinger of new beginnings, the guardian of our forest galaxy, until we launch him back into Deep Space in a frenzy of fire and flame.

THE TEMPLE

The Temple will burn from 8pm Sunday night

TIM (HURRICANE) BESTMAN, LEAD ARTIST.

ASTROLABE

In an effort to understand deep space we have been studying the stars and celestial bodies for millennia. The technological development of the Orrery, over 300 years ago, was a breakthrough in visualising and describing the orbit of the celestial bodies. It has become a synonymous signifier of Deep Space. Deeply laden with symbology this piece is representative of many scales; macro, human and micro. On a macro scale it depicts a sun and its orbiting planets, or a planet and its orbiting moons with each external body ascending to the ultimate event horizon at which point it is sucked into another state of being.

At a human level I see the main sphere as ones self. The 3 orbiting bodies spiralling around can represent many things. Yoga guru Sadhguru would say they represent the interplay of Time, Information and Energy. I think of them as Charkras or Poi. At a microscopic level the central dome makes for a reasonable accurate representation of a nucleus of an atom with electrons buzzing around it. The helix spirals also strongly signify the sugar-phosphate backbones of DNA strands with the support arms acting like base pairs. In these ways the Astrolabe is the perfect place to explore Deep Space at all levels.

THEME CAMPS

Alcazar Riffle #36

Lightning strikes behind the visual curtain/cracked open a mystical portal. Our siddhis revealed in our recovery from amnesia throughout the mutual imagining of a mnemonic palace, hidden within our unconscious psyche. The courtiers host all kinds of reveries and seek to install the vision as an aesthetic open process of fumbling. The crumbling palace is the mainscale, yearning to achieve the impossible somewhere along the way is already beyond ordinary expectation. An elegant French shuffle - a riffle from the dawn of time which split the parallax worlds.

A full moon is centered in the upper half of the image, set against a vibrant purple and blue galaxy background filled with stars and nebulae. A complex white geometric pattern, consisting of overlapping squares and diamonds, is superimposed over the moon and the galaxy. The pattern is symmetrical and creates a grid-like structure around the central moon.
