

WHAT WHERE WHEN

BURNING SEED 2017

SEPTEMBER 27 - OCTOBER 2 2017
RED EARTH CITY, MATONG STATE FOREST, NSW

WE ACKNOWLEDGE THAT BURNING SEED
IS BEING HELD ON THE TRADITIONAL
LANDS OF THE WIRADJURI PEOPLE. WE
RECOGNISE THE STRENGTH,
RESILIENCE AND CAPACITY
OF ABORIGINAL AND TORRES STRAIT
ISLANDER PEOPLE AS THE
TRADITIONAL CUSTODIANS OF THIS
LAND.

THE BURNING SEED 2017 THEME IS:
DEEPER SPACE

What is Deeper Space? Is it an empty region of outer space beyond our reach, or is it a place to find a deeper understanding of ourselves and the space that is between us?

As humans, we constantly search for meaning to our existence, we look for connections with others and we have gazed at the stars with childlike wonder imagining what else is out there and if we are alone in the universe.

Burning Seed is a reminder that we are not alone and that we are all connected on a deep level. It is an opportunity to break down the barriers and the space between us and look for a deeper meaning to our lives - and maybe, gaze at the stars and wonder together.

Burn Bright
(words by Andy Goodyear)

IMPORTANT STUFF

SERVICES & SUPPORT..... INFORMATION

Red Earth Info at Centre Camp is your first contact point for Seed-specific questions. It will be staffed from 11am to 3pm every day. Come by and say hi!

CENTRE CAMP

Centre Camp is the heart and hub of Burning Seed action. It's a communal space found at the centre of Red Earth City, where everyone can gather, perform, learn, dance find info or generally just commune.

RED EARTH RADIO

Tune in for PSAs, interviews and some seriously rad music! Frequency 92.3 FM. Bring a radio to Burning Seed and drop in and say hello!

PASS OUTS

If you really need to leave the site, there is a \$20 pass out per vehicle. Head to Gate where they will organise a pass out for you. The crew will also record car registration and number of participants in the car. When you return to the site, Gate will make sure everything matches up and then take the pass back. All funds from pass-outs are donated to Red Earth Ecology.

ICE SALES

Ice is the one exception to the no-commerce rule. It will be on sale at Centre Camp between 10-11am and 4-5pm daily for \$4 a bag or 3 bags for \$10.

TOILETS

It is vital that only human waste and toilet paper go into the toilets – NO food, tampons/sanitary products, or any other refuse. Keeping the portaloos clean and tidy helps maintain respect for our shared facilities – the neater YOU help keep them, the cleaner they will stay.

LOST AND FOUND

Take found items to Red Earth Info in Centre Camp or the Greeters Station.

RANGERS

Rangers are participants who have gifted their time to ensure the safety of the Burning Seed site and those who are in it. They are your go-to people if you have a question or concern, and can be identified by their orange ranger uniforms.. They can be found roaming or at Ranger HQ next to Centre Camp. They are there to help - all for fun and fun for all!

PEER RANGERS

Psychological and Emotional Emergency Response (P.E.E.R.) Rangers provide specialised emotional support on the Paddock for burners who are having an emotional, mental or psychological crisis that goes beyond the capacity of their Burner community and Red Earth City Rangers to manage. This may involve significant violations of personal space, gendered based violence or distressing thoughts and emotions. PEER Rangers can be contacted via Rangers 24 hrs or visit Ranger HQ near Centre Camp.

MEDICAL SERVICES

If you or someone else requires medical assistance find a Ranger, or visit our First Aid Team right next to Centre Camp. Trained medical volunteers are on duty 24/7 and emergency evacuation is available.

SECURITY

Security personnel monitor the gate and boundaries. Do not for any reason leave the boundaries of our site unless exiting through the main gate. If you have any concerns with security, ask for Ranger assistance.

COMMUNITY IN ACTION.....

SANCTUARY

Things don't always go to plan at Seed - even for veteran burners; and for those times where you can't find your flow - there is Sanctuary. If your feet are sore from exploring, if your mind is weary from wandering and if you're all partied out with nowhere to go Sanctuary is a low stimulus chill space with trained crew of volunteers ready to help you get back on your feet. Sanctuary will operate around the clock during Seed working alongside Rangers, Peer and Medics.

PARTICIPATION

We are a society of activists. When we see a job that needs to be done, we roll up our sleeves and pitch in. There is no 'they', only 'us'. If you see someone acting irresponsibly, introduce yourself and speak up. But don't be a 'participation snob'. Just because someone isn't costumed or visibly participating doesn't mean they aren't contributing.

COMMUNITY CREW

If you have not already raised your hand to help, it is not too late! Check out the community crew page at www.burningseed.com or come down to Centre Camp to chat about how you can help to make the awesome happen.

CHILDREN

All children under 18yo must be accompanied by their parent or legal guardian. It is your responsibility to ensure the safety of your child at all times during Seed. If you encounter a lost child, alert a Ranger immediately. Always be respectful of children's personal space and their needs. They are a part of our community.

OUR NEIGHBOURS

There are properties bordering the forest on all sides of our city and entry to these is prohibited. Please respect our neighbours.

CARS & DRIVING RULES

Red Earth City is a bicycle and pedestrian-friendly city. Once you have entered the event and driven to your campsite, there is no driving allowed unless you are a registered Mutant Vehicle. The following road rules apply in Red Earth City:

- * All vehicles must be either licensed or posses a REDMV permit
- * You must drive at 5 km/h or less in hazardous situations such as tight crowds
- * Give right of way to pedestrians, bicycles, and emergency services vehicles
- * Stop immediately when hailed by a Ranger, REDMV official, site manager, DPI member or law enforcement officer
- * Do not drive under the influence of drugs or alcohol
- * Do not drive on wet or freshly watered roads
- * All Mutant Vehicles must seek a permit by contacting redmv@burningseed.com before the event.

ALCOHOL & ILLEGAL SUBSTANCES

Responsible use of alcohol is allowed for adults. If you are serving alcohol, it is your responsibility to verify that the person you are serving is of legal drinking age (18+). As with the rest of Australia, Seed has to follow state and national laws concerning illegal substances. The rules apply.

COMMERCE & ADVERTISING

The sale of products and services is prohibited at Seed. There is NO participant vending. If you need a specific item, ask your neighbours. Confront your own survival. Corporate advertising is also not allowed. Participants with rental trucks are encouraged to cover or decorate logos. The display or distribution of corporate banners, logos, giveaway items, samples and other promotional paraphernalia is prohibited.

PETS

We get that you love yours, but pets are NOT allowed at Seed. If you are found with a pet on site, you risk being evicted from the event.

MEDIA

There are limited media crew at Burning Seed who take video & photos, there are also some who fly

drones. Media crew are part of our community and register as media prior to the event. All media crew must wear media passes (lanyards) when engaged in photography/video. Please note that not everyone you see taking photos will be part of the crew as personal pictures are allowed too. Our media crew are pledged **NOT TO INTERFERE WITH YOUR EXPERIENCE**. If you feel that a media person is creating a nuisance, please contact the Rangers.

GENERATORS

If you need to use a generator, please follow these rules:

- fi Make sure the exhaust is positioned away from any flammable materials (including grass), raise the generator up if necessary.
- fi Ensure power cords do not create a trip hazard and connections are out of the rain.
- fi Don't run your generator late at night or early in the morning in the quiet camping area.
- fi Place the generator as far from other camps as possible.

SOUND

Burning Seed is dedicated to radical self-expression, but it is also dedicated to creating community. This means we all must find a way to get along with our neighbours – having a good time at the expense of someone else's experience ain't cool.

- * Neighbours should talk to one another when sound becomes a problem. If your neighbour feels your sound is too loud, you must work with them to find an acceptable volume.
- * Camps playing loud music **MUST** be located on the western side of the Paddock (the "LOUD Zone"). They may freely express themselves unless the sound levels conflict with theme camps in the vicinity and/or there are persistent community complaints. Sound systems should not be directed back across the Paddock towards the quiet camping area.
- * Any unresolved complaints about excessive sound will become the concern of the Red Earth Rangers.

- * Not everyone will want to sleep when you do. The most reliable way to get a quiet, uninterrupted night's sleep is to camp as far east in the city as possible (farthest corner from the Gate). There are no noise-free zones at Burning Seed, only less-loud areas; light sleepers are advised to bring earplugs.

THE ENVIRONMENT

THE DAM

All Dams in our Forestry Closure Area are OFF LIMITS. That means NO bathing, swimming or washing of any items are permitted. Children must have an adult with them whenever they are nearby. In a previous year a frog habitat was completely destroyed by bathers. The dam is strictly OFF LIMITS.

LEAVE NO TRACE

In case you missed the memo, there are no bins at Burning Seed. You are responsible for managing your own rubbish and recycling as you go, taking it all with you when you leave. Rule No. 1 of Leave No Trace – Don't let it hit the ground! When you head out to the Paddock, take a bag with you for your trash and pick up any MOOP (Matter Out Of Place) you see on your adventure. Smokers, carry a butt-bin for your butts and ash. Bring your own cup. Use a camelback or refill personal water bottles. Pack smart and remove packaging from new items before you leave home - the less MOOP you bring, the less you will have to deal with.

GREY WATER

It's okay to dump some non-toxic grey water on the grass, but **NOT IN THE DAM** Package any toxic grey water up in the same containers you bring your water.

FIRE

To ensure the safety of all attendees throughout Burning Seed, it is important to understand what is expected of a ticket holder during the event. Fire is one of the biggest risks to attendees and our neighbouring properties. In the event of an emergency safety is paramount. We take fire very seriously as a community, and we ask for your understanding and cooperation with respect to the following guidelines.

OPEN FIRES: Only registered art, fire pits, events or Theme Camp burn barrels are permitted throughout the event. No exceptions! This ensures Burning Seed complies with local council permit conditions and that safety of all attendees is adhered to.

NO SOLID FUEL FIRES are permitted within the festival grounds as per the outlined perimeter shown on the site map. Solid fuel fires include the following:

- * Cooking stoves and pizza ovens that use solid fuel
- * Anything requiring the use of wood as a source of fuel
- * BBQ coals or any open flame besides the use of cigarette lighters
- * Candles and/or sparklers
- * Gas heaters, camp fires & braziers are strictly prohibited

IF YOU SEE ANY OTHER FIRES: please inform a Seed Ranger or other volunteer immediately. Personal fireworks and firearms are also prohibited.

FLAME EFFECTS: Whether its part of your art, mutant vehicle or Theme Camp, all flame effects or pyrotechnics must be registered with the Fire Art Response Team. If you haven't already done this, then sorry folks, it's no go with that wacky flamethrower you brought along for kicks.

FIRE TWIRLING: The Fire Enclave will coordinate all fire twirling, which can only occur in designated areas. You can find their noticeboard on the main area of the Paddock..

BURN PERIMETERS: The Effigy, Temple and art piece burns will have safety perimeters coordinated by the Red Earth Rangers. In light of past tragedies

GAS STOVES & BBQS

Gas-fired stoves and BBQs are permitted during Burning Seed providing you comply with the following:

- * Safety directions from the manufacturer are adhered to.
- * Gas cylinders / bottles must comply with Australian standards - they must be in date, showing NO rust and/or visible damage.
- * Ensure there is a three (3) meter clearance horizontally and vertically within the area you intend to utilise a gas-fired stove or BBQ.
- * Clear the immediate area of leaves, sticks and branches. Do not place your BBQs directly under trees, tarps, or structures.
- * Do not place gas cookers on the ground.
- * Gas-fired stoves and BBQs must not be left unattended under any circumstances.
- * Turn off the gas bottle on completion of every use. No exceptions!

at regional burns, we ask for your full cooperation in respecting the Rangers' guidance and not approaching the fire until clearly permitted to do so.

TOTAL FIRE BAN: It is unlikely but possible that there may be total fire ban days. If this happens then all attendees must comply with State laws which stipulate **NO NAKED FLAMES**. Extend the utmost care even to cigarettes, pipes and cigars as well.

In the event of **NON PERMITTED** fires, the Fire Art Response Team may partially or fully suppress the immediate area. This may include your theme camp, malfunctioning flame effects, DJ booth or illegal camp fires.

THE 10 PRINCIPLES

Burning seed is an experiment in temporary community. Our culture is guided by the following ten principles of burning man:

RADICAL INCLUSION

Anyone may be a part of Burning Man. We welcome and respect the stranger. No prerequisites exist for participation in our community.

GIFTING

Burning Man is devoted to acts of gift giving. A gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL SELF-EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

COMMUNAL EFFORT

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks,

public spaces, works of art, and methods of communication that support such interaction.

CIVIC RESPONSIBILITY

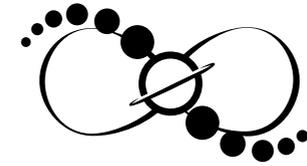

We value civil society. Community members who organise events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

PARTICIPATION

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

IMMEDIACY

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

LEAVING NO TRACE

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavour, whenever possible, to leave such places in a better state than when we found them.

RADICAL SELF-RELIANCE

Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

CONSENT, CONSENT, CONSENT

COMMUNICATION IS THE BEST FORM OF LUBRICATION!

Knowing your boundaries and respecting those of others is the safest way to enjoy many interactions at Seed. Consent is required to protect and nurture Seed as a radically expressive space where our community can play securely. Burning Seed is committed to ensuring that the event is as safe as possible for everyone and violations of consent will NOT be tolerated. Not obtaining consent is also against the law.

ALWAYS ask before initiating physical contact such as touching, hugging, spanking or entering someone's personal space. If in doubt ASK. Wanna take a photo? Ask for consent first or check immediately after. If asked to delete a photo, do it immediately.

Asking for consent eliminates confusion and fosters a tighter, safer and more open community.

Consent is not a 'maybe' or 'not now' or 'maybe later'...it is a clear expression of YES! Consent can be withdrawn at any time (even if the activity was previously agreed to) and if this occurs, you must stop what you are doing immediately.

Our community is serious about respecting each other. If you are observed to act in a disrespectful or non-consensual manner towards others, you may be approached by your fellow burners to change your behaviour immediately. Issues can be reported to an on-duty Ranger. For more serious assaults, our P.E.E.R. (Psychological and Emotional Emergency Response) Ranger Team are available to assist. Violators and repeat offenders can be ejected and banned from future events.

EFFIGY

EVERETT WAYNE, LEAD ARTIST
EFFIGY LEAD, KORRI BRENNAN
EFFIGY ZIC, SULLY BRENNAN

Humankind's search for the unknown is a millennial journey, one that has no real beginning and will have no end. Deep Space has drawn all of us together, from the furthest corners of this land, this earth, this solar system and beyond.

In Deep Space we have a chance to find out who we are, and to offer gratitude to who we were and who we are yet to be. We are all ultimately alone yet we are also all vital to each other's existence, we are community, and we use this special time to reflect on our past, present and future as a tribe.

Reaching for the stars, standing atop his illuminated spaceship neatly and magnificently parked on the Paddock, the Man is both alien and familiar – a stranger and a friend. He is a guest, a visitor, an observer watching closely and quietly, learning how we as Citizens of Red Earth City choose to live, to love, to play and to survive in harmony with our surroundings.

He is the alien among us, a harbinger of new beginnings, the guardian of our forest galaxy, until we launch him back into Deep Space in a frenzy of fire and flame.

TEMPLE

The Temple will burn from 8pm Sunday night

TEMPLE OF CRUX
BRADLEY OGDEN, LEAD ARTIST

As humans push forward towards deep space exploration, with Alpha Centauri our most likely destination, we must first assess our path here on Earth before we blaze a trail towards the stars. The Southern Cross, once a tool for peoples across the globe to navigate and discover, has been co-opted by the flags of nations - and now the necks, calves and biceps of would be patriots.

The resurgence of nationalism around the globe prompts the questions: Where are we headed here on Earth? Are we able to truly move forward into space without first confronting our nation's history? What role will the arbitrary lines on a map of Earth play in the far reaches of our solar system? Will there be a day where theism and nationalism gives way to humanism, and we embrace all the peoples of this planet as one?

History of Crux

In some Aboriginal cultures, Crux (The Southern Cross) and the nearby Coalsack mark the head of the 'Emu in the Sky', while in several other Aboriginal cultures, Crux is seen as a possum sitting in a tree, a representation of the sky deity Mirrabooka, a stingray or an eagle (The Boorong people of the Wimmera region; Quandamooka people of Stradbroke Island; Yolngu people of Arnhem Land; Kaurna people of the Adelaide Plains, respectively). Torres Strait Islanders depict Gamma Centauri as the handle and the four stars as the trident of Tagai's Fishing Spear. The Aranda people of central Australia perceive the four Cross stars as the talon of an eagle and Gamma Centauri as its leg.

Once viewable from the Northern Hemisphere, the ancient Greeks regarded the formation of stars as a part of the constellation Centaurus and it features on the national flags of Australia, New Zealand, Samoa, Papua New Guinea and Brazil; Provincial flags throughout Chile, Brazil and Argentina; as well as on the flag for the Mercosur trading zone of South America.

Observers have long noted the Southern Cross as an important tool in navigation; together with Alpha and Beta Centauri, "The Pointers", the celestial South Pole can be found and a direction of travel can be determined.
